PROFILE

Cloud & DevOps Engineer with a Master's degree in computer science specialised in Cloud Computing and hands on experience at Airbus Defence and Space. Proficient in **Linux administration, Kubernetes, container platforms, and IaC**. Strong background in **CI/CD, cloud infrastructure**. Experienced in managing environments, implementing observability (Prometheus, Grafana), and ensuring security compliance in highly data sensitive aerospace environments.

WORK EXPERIENCE

DevOps Engineer Intern: Airbus Defence and Space, Germany Apr 2026 – Aug 2026

- Developed and maintained a Linux-based CI/CD build pipeline for aerospace software, integrating Jenkins, Docker, Python, and Bash automation.
- Configured Linux build environments and containerized build processes to support software integration and validation
- Investigated and resolved pipeline, build, and runtime failures across the CI/CD workflow, improving reliability and reducing manual troubleshooting.
- Collaborated with software engineers on integration and validation within a security-sensitive aerospace environment.

Technologies: Linux, Python, Bash, C/C++, Git, CI/CD, Docker, Jenkins, Software Integration

DevOps Engineer Intern: United Services, Tunis Jul 2025 – Aug 2025

- Developed full-stack application using Spring Boot (Java) and Angular (TypeScript).
- Administered Linux environments and containerized the application using Docker.

Technologies: TypeScript (Angular), Java (Spring Boot), Docker, Linux, Git, Jenkins, REST APIs

Software Engineer Intern: Inetum, Tunis Jul 2024 – Aug 2024

- Developed a custom Java mediator for WSO2 to generate authentication tokens with configurable expiration policies, packaged and deployed as a Docker image.
- Extended enterprise integration platforms (Java, WSO2) to client-specific requirements, working on API integration and backend troubleshooting with senior engineers.

Technologies: Java, WSO2 Micro Integrator, JWT, REST APIs, Docker, API Integration

PROJECTS

***Team Project* - Cloud infrastructure & DevOps platform: ESPRIT** Oct 2024 – May 2025

- Designed and deployed a Kubernetes-based cloud-native platform using **6 physical PCs** as controller, compute, and storage nodes with **OpenStack** and setup of a **4-node Kubernetes cluster** with Ansible for automated provisioning.
- Provisioned and managed **4 virtual machines** using Heat templates, enabling on-demand resource allocation.
- Deployed a full-stack app on Kubernetes with 8+ manifests (Deployments, Services, ConfigMaps, Ingress).
- Installed and configured Prometheus and Grafana using Helm to create real-time monitoring dashboards for cluster.

Technologies: Kubernetes, Docker, Ansible, Terraform, Linux, CI/CD, Prometheus, Grafana, RBAC, Secrets Management, Network Policies, Infrastructure as Code, Angular, Spring Boot, MySQL

***Team Project* - High-availability reservation system: ESPRIT** Jan 2024 – May 2024

- Developed a full-stack reservation platform using Java for the desktop version and Symfony for the web version
- Implementing REST APIs, authentication, and real-time synchronization within an Agile team using Git.

Technologies: Java, Symfony,PHP, MySQL, REST APIs, Git

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, Terraform, Ansible, OpenStack,Docker, Kubernetes, Jenkins, DevOps, CI/CD
Frameworks & Programming: Spring Boot, Angular, Symfony,Python, Bash, Java, C/C++, REST APIs, MySQL
Monitoring & Security: Prometheus, Grafana, IAM, RBAC, Network Policies, Cloud Security

EDUCATION

Technische Universität Ilmenau, Germany Oct 2025 – Aug 2026
Exchange semester: Computer science

Private Higher School of Engineering and Technology (ESPRIT), Tunisia Sep 2023 – Aug 2026
Master degree: DevOps & Cloud Computing Engineering

University of Economic Science and Management of Sfax (FSEG), Tunisia Sep 2020 – Jun 2023
Bachelor degree: Computer Science Applied to Management

CERTIFICATIONS & LANGUAGES

Certifications: CCNA: Switching, Routing, and Wireless · Kubernetes Fundamentals · Linux Foundation LFS101x · AWS Academy: Cloud Security Foundations, Cloud Operations
Languages: Arabic (native) · English (C1) · French (B2) · German (Beginner, actively progressing) · Japanese (basic conversational)

INTERESTS

Anime, movies & TV series · Table tennis · Volleyball
