Cloud & DevOps Engineering Student

ABOUT ME

Final-year Cloud & DevOps Engineering student at **ESPRIT (Tunisia)**, currently completing an exchange semester at **Technische Universität Ilmenau (Germany)**, passionate about transforming business needs into technical cloud solutions. Experienced in designing and implementing scalable infrastructure with hands-on expertise in automation and cloud technologies. Looking for a 6-month internship in Germany to contribute to scalable cloud projects while expanding my technical expertise.

WORK EXPERIENCE

Cloud/DevOps Intern : United Services, Tunis (On-site)

Jul 2025 : Sep 2025

- Created and implemented a **Spring Boot + Angular** RH management system hosted on a private **VPS** environment
- Implemented a multi-container setup with **Docker Compose**, ensuring modular deployment and easy scalability
- Configured **Nginx** reverse proxy with **TLS termination**, improving request routing efficiency by **25%**
- Automated backend deployment scripts on Linux servers, reducing manual deployment effort by over **30%**
- Enhanced system stability and deployment reliability through infrastructure automation and monitoring

Engineering Intern : Inetum, Tunis (On-site)

Jul 2024 : Sep 2024

- Customized the **WSO2 Developer Portal** to match client branding and improve usability
- Integrated REST APIs and collaborated on front-end adjustments using **React** and **Node.js**

RELEVANT PROJECTS

Cloud Infrastructure & App Deployment : Esprit

Oct 2024 : May 2025

- Designed and deployed a small-scale private cloud infrastructure using **7 physical PCs** with OpenStack, implementing infrastructure-as-a-service principles
- Automated VM provisioning using **Heat templates**, enabling on-demand resource allocation and auto-scaling capabilities
- Implemented Infrastructure-as-Code (IaC) using **Ansible** to automate the setup of a **4-node Kubernetes cluster**, including pod networking, storage provisioning, and service mesh configuration
- Containerized a full-stack application (**Spring Boot, Angular, MySQL**) using Docker and deployed on Kubernetes with **12+ manifests** (Deployments, Services, ConfigMaps, Secrets, Ingress, Persistent Volumes)
- Implemented automated rolling updates, health checks, and self-healing capabilities ensuring **99%+ service availability**
- Configured cluster monitoring, logging, and automated backup solutions for production-ready infrastructure

Sports Facility Reservation System : Esprit

Jan 2024 : May 2024

- Engineered a full-stack reservation system using **Java/JavaFX** (desktop) and **Symfony/PHP** (web) that reduced booking processing time by **40%** through real-time availability updates
- Designed and implemented a unified **MySQL** database schema supporting **500+ daily transactions** with **99% data consistency**
- Applied **Agile methodologies** to deliver a production-ready system handling facility management, user authentication, and payment processing
- Implemented comprehensive testing strategies including unit tests, integration tests, and user acceptance testing

EDUCATION

Technische Universität Ilmenau, Germany <i>Exchange Semester – Cloud Systems & Software Engineering</i>	2025 : 2026
ESPRIT – Ecole Supérieure Privée d'Ingénierie et de Technologies, Tunis <i>Computer Science Engineering Degree (Cloud & DevOps)</i>	2023 : 2026
FSEGS – Faculty of Economics and Management, Sfax <i>Diploma in Computer Science Applied to Management</i>	2020 : 2023

TECHNICAL SKILLS

Cloud & Infrastructure: Docker, Kubernetes, Ansible, Terraform, Linux, Nginx, OpenStack, System Integration
CI/CD & DevOps Tools: Jenkins, GitHub Actions, Git, GitLab CI/CD, MobaXterm, Automation Scripting
Programming Languages: Java, Python, JavaScript, PHP, C, C#, Bash
Blockchain & Web3: Ethereum Ecosystem, Decentralized Systems, Node Infrastructure
Frameworks & Libraries: Spring Boot, Angular, Symfony, React, Flutter
Testing & Automation: Test Automation, CI/CD Pipelines, System Integration, Quality Assurance

CERTIFICATIONS

- AWS Academy Cloud Security Foundations
- AWS Academy Cloud Operations
- CCNA: Switching, Routing, and Wireless Essentials

LANGUAGES

- Arabic (Native)
- English (Fluent)
- French (Fluent)
- German (Basic, learning)
